

Role Title: Director – Centre for Advance Timber Technology, NMITE (New Model Institute for Technology & Engineering)

Location: Hereford, United Kingdom

- Relocation assistance available

More about NMITE (New Model Institute for Technology and Engineering)

NMITE is working towards becoming a new higher education provider, headquartered in Hereford, UK. Engineering- and teaching-focussed, it will enable its future learners to learn by undertaking real-world engineering and technical projects provided by employers and community groups. NMITE aims to break the mould in existing higher education provision – to be a disruptive game-changer in every facet of its operations and programmes.

NMITE are now seeking a Director to develop and lead a Centre for Advanced Timber Technology.

Overview of the opportunity: Director, Centre for Advanced Timber Technology.

A high-profile part of NMITE’s activity will be the Centre for Advanced Timber Technology (CATT). The Centre will play a strategically influential role in supporting and expanding the use of timber in modern construction, intervening across the lifecycle from ‘seed to building’. We are now seeking to appoint an education and impact-oriented Director for the Centre, a leader who can operate strategically and tactically to shape and deliver the Centre’s organisational development, its educational portfolio, industrial collaborations and impact profile. As a Professor and subject lead, you will be an academic leader overseeing the delivering of high quality, learner-centred teaching, underpinned by academic scholarship within the general area of Timber Engineering.

The experience we are seeking that will make the right candidate stand out to lead this brand new initiative will be a deep passion for timber (broadly) and its uses across engineering and construction. You’ll have an enviable network of industry contacts and connections will help garner support for the Centre internationally and within the UK, gaining access to real world engineering and construction initiatives for your future students learn from.

NMITE are working closely with Mallory Partners, an Executive Search company to identify the Director – CATT. To find out more please contact: John Edwards, Mallory Partners. Email: john.edwards@mallorypartners.com, or Tel: +44 (0)7903 191 388.
