

IUFRO "WOOD PROTECTION" MEETING

SATURDAY, MAY 16, 1987

WELCOME AND INTRODUCTION	V. N. P. Mathur — Canada
KEYNOTE SPEAKER	J. Youngquist — U.S.
Overview of Composite Products	
BIODETERIORATION OF COMPOSITES	
Problems encountered in the performance of composite products in service	J. A. Butcher — N.Z.
Decay and strength reduction in aspen waferboard	E. Schmidt — U.S.
Investigations on the organism susceptibility of wood-based panel materials	Q. Wang — Sweden
TEST METHODOLOGY IN THE BIODETERIORATION OF COMPOSITES	
Assessing the fungus resistance of wood-based composites	A. F. Bravery and R. G. Lea — U.K.
Testing the resistance of plywood and particleboard against wood-destroying basidiomycetes	W. Kerner-Gang — Germany
The use of a semi-permeable membrane in basidiomycete bioassays of unleached particleboard	G. C. Johnson and A. K. Martin — Australia
PROTECTION OF COMPOSITES	
Protection of wood-based panel board against fire and decay — actual situation in the EC and further development	H. -J. Deppe — Germany
Preservation of wood-panel products — decay resistance in laboratory and field tests	H. Viitanen — Finland
Field testing of pressure treated plywood	J. N. R. Ruddick — Canada
Powdered preservative formulations for PF and MDI bonded aspen waferboard	E. L. Schmidt — U.S.
Potential wood preservatives for glue-line treatment of plywood	K. Tsunoda — Japan
Wood modification in the protection of wood composites	R. Rowell — U.S.
Title not yet available	M. E. Hedley and P. Vinden — N.Z.
Novel treatments for composites	R. J. Murphy and D. J. Dickinson — U.K.

SUNDAY, MAY 17, 1987

STORAGE OF SOFTWOODS	
Prevention of stain and mould on sawn softwoods:	
The situation in Canada	A. Byrne — Canada
The situation in Sweden	B. Henningsson — Sweden
The situation in Finland	T. Vihavainen — Finland
The situation in New Zealand	J. Drysdale — N.Z.
The situation in Japan	K. Tsunoda — Japan
Report on stain and mould development on Chilean Pinus radiata prior to shipment	M. C. Rose — Chile
Control of deterioration in Portuguese pine imported in the U.K.	D. J. Dickinson — U.K.
A comparison of test methods for developing prophylactic chemicals for softwoods	R. Eaton and G. Williams — U.K.
STORAGE PROBLEMS OF ROUNDWOOD	
Some aspects of protected and unprotected logs in storage	J. Boutelje — Sweden
Economic aspects of storage of roundwood	J. O. Soderstrom — Sweden
Storage of softwood logs from environmentally polluted sites	H. Willeitner — Fed. Rep. Germany
Chemical treatments for the protection of Radiata pine logs	J. Drysdale — N.Z.

Sponsors

Special acknowledgement is expressed to the following sponsors for their support to make possible this event:

Canadian Forestry Service, Ottawa
Canadian Institute of Treated Wood, Ottawa

Canadian Wood Preservation Association, Toronto
Forintek Canada Corp., Vancouver

Canadian Pacific Air Lines and Air Canada have been appointed dual "Official Carriers"
